

## ENVIRONMENTAL POLICY

AGAN LTD believes that environmentally responsible action is an essential part of sustainable business growth. We are aware of the environmental impact of our activities, and seek the optimum use of natural resources, the save of every kind of energy we use, along with the mitigation of waste production. Moreover, we are aware of the indirect impacts from our activities, as well as from the relationships we develop with our employees, our customers and the society in general.

We are committed to assess and review annually the impact of our activities on the environment, to set appropriate objectives and targets, to continually control and improve our environmental performance, and to adhere to local, national and international laws and regulations.

We believe that environmental management is an integral part of an enterprise's proper and socially responsible behavior. To this end, we adopt an environmentally responsible attitude in our day to day operation, which is also, gradually, adopted towards our colleagues, our customers and suppliers, as well as towards the society in general, implementing sound environmental practices, and promoting economic growth.

On behalf of AGAN LTD,
